SERVOX® DIGITAL ELECTROLARYNX

REF 70000

- A modern, high-quality electric speech aid
- The speech aid is applied to the user's throat and generates sound oscillations, which are transmitted to the pharyngeal, oral and nasal area through a membrane
- These oscillations are converted through natural speaking motions and form an understandable replacement voice
- The manual basic settings allow customisation and saving of the audio frequency and sound qualities. Optional software is available for further customisation options
- The volume control can be adjusted individually to suit the user's needs using a rotary knob.
- A soft screw cap for a more muted sound is available optionally

TECHNICAL DATA

Volume	max. 87 dB
Dimensions	L 128 x Ø 35 mm
Weight	approx. 110 g excl. batteries
Talk time*	4-5 hours*
Voltage	1.2 V/1.5 V
Typical capacity	750 mAh – 900 mAh
Battery type:	AAA NiMH (HR03)
	*The talk time depends on the selected battery capacity. The battery life specified by the manufacturer must be observed.

SCOPE OF DELIVERY

SERVOX® digital Electrolarynx	**REF 70000**
1 x Speech aid	
1 x Screw cap hard tone	REF 70001
1 x Strap set	REF 70003
1 x Belt pouch	REF 70006
1 x Battery holder	REF 70005
4 x Rechargeable battery (type AAA)	REF 70027
1 x Charger Varta LCD Plug	REF 70029
1 x Instructions for use	

Optionally available:

Screw cap soft tone	**REF 70002**
Oral tube with adapter	**REF 70004**
1 x Adapter	
2 x Oral tube short	
2 x Oral tube long	
Travel adapter	**REF 70007**
